## View HAR file contents

### What are HAR files?

The [HTTP Archive \(HAR\) format](#) records what network requests are made by the browser when accessing a website.

### HAR request waterfall

A [network request waterfall](#) shows how long each network request took and when during the page load process it was made.

## Open HAR file to inspect network request details

### File size, response status, priority, and more

Click each request to expand it and view additional details.

## Collect page speed data in a controlled environment

### More detailed page speed data

HAR files just show basic info on network requests. But a full page speed test will tell you key performance metrics and a rendering filmstrip showing when content becomes visible.

### Extra request details

See what requests are render-blocking, what resources are preloaded, and how different resources relate to each other.
